

IRISH MAY GET
PARIS HEARING.

Lloyd George Expected to
Spring Surprise.

Sinn Fein President to March
Into Dublin Wednesday.

Startling Developments Pre-
dicted in Green Isle.

BY HENRY M. HYDE.

(REUTERS WIRELESS DISPATCH.)

LONDON, March 23.—The next few weeks are liable to be full of import for Ireland. First of all, there is a possibility that Premier Lloyd George may actually put the Irish question before the Paris Peace Conference. That possibility is worth mentioning, because I found both the leaders of the old Irish Nationalists and the new Sinn Fein in Dublin are waiting and hoping in almost breathless attention for the word that Paris would consider the Irish situation.

It is barely possible the British Premier may decide to devote a week and quite unexpected action.

It is plain that the coming week may well see more or less startling events on the green island itself. It is announced that on Wednesday, Prof. de Valera, who was elected President of the Sinn Fein republic and who has been in hiding since he escaped from an English jail, will return openly to Dublin, will be met at the city gates by the Lord Mayor and escorted by procession to the Mansion House. Also I was told in Dublin that the Sinn Fein Parliament, composed of seventy-two members, who were elected by Sinn Fein votes to the British House of Commons, will hold its second meeting at the Mansion House during the present week.

But for the imperative need of the Premier's attendance on the Peace Conference, I believe the Irish question would have been taken up for serious debate and consideration in the House of Commons before this. Once or twice tentative dates have been fixed for it. But either calls from Paris or the necessity of his entire attention to the labor crisis has so far compelled postponement. As soon as the Premier can safely leave Paris and labor troubles are put out of the way, I think the question will have prompt and earnest attention in Parliament.

So far I have heard four plans suggested for dealing with the vexed and tragic problem of Ireland. One is the Sinn Fein project for making the island an Irish republic entirely independent and outside of the British empire. For the sake of that dream a number of men have already died. I am told and believe that a much larger number stand ready to sacrifice their lives. It is almost impossible for an outsider to express an opinion on such a matter, but to me the Irish people must always remain an unrealized dream, no matter how dear the vision.

I left London at 10 o'clock in the morning. Shortly after 1 o'clock I was in Dublin. The coast of Ireland is within two hours' steaming run of both Scotland and Wales. England has been four years under the menace of invasion across the English Channel. She will not willingly make it possible for a future enemy to establish bases even closer for invasion from the west. There

GRAND TRUNK REJECTS
CANADA'S BUY OFFER.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON (Via Montreal) March 23.—At the meeting of the shareholders of the Grand Trunk Railway, at which it was decided not to accept the Canadian government's offer for the purchase of the road, Alfred W. Smithers, chairman of the board of directors, declared the road was anxious for a friendly settlement. "But," he added, "unless the government is prepared to increase its offer such friendly settlement is impossible."

Mr. Smithers said the company had offered to sell the road on an average of the last ten years' earnings. The government, he contended, was making as a condition of relieving the Grand Trunk of the liability of the Grand Trunk Pacific that it sell the parent road at a disastrous loss to second and third shareholders.

During the explanation of the government's plan there were cries of "confession," "shame" and "scandalous."

FAVORS IRISH NATION.

(BY A. P. NIGHT WIRE.)

SPRINGFIELD, March 23.—Hon. E. Cummings, chairman of the National Democratic Committee, and Senator David I. Walsh were the principal speakers here last night at a "Victory dinner" attended by more than 300 Democrats. A resolution was adopted asking President Wilson to use his influence for consideration by the Peace Conference of the claim of Ireland for nationhood.

Mr. Cummings said Democrats constituted a "miracle of legislative progress" and declared the Republican party had been captured by reactionaries. He said he was in favor of a League of Nations if he could draw the document himself, but was utterly opposed to it if President Wilson had any hand in framing it. He still hoped "the greatest project would not become a partisan question."

TENOR :: GIVEN :: CITIZENSHIP :: PAPERS.

Famous Irish Song Bird is Glad He's an American Citizen.

John McCormack Naturalized by New York Judge.

Photo shows McCormack, at left, receiving congratulations of Justice David H. Knott, outside the Courthouse, where he received his second papers. The famous Irish singer sought to enlist in the United States Army during the war, but at President Wilson's personal solicitation was persuaded to refrain from a practical military demonstration of his patriotism and instead accomplished what the authorities considered as far greater service for the country in conducting concerts at home and abroad in the various army cantonments and points of embarkation.

are many persons geographical, industrial, commercial and social, why Ireland is naturally part of the British empire. To make a new and happier place for Ireland inside the empire is, as I gather, one of the most ardent aspirations of the British government and the British people. Under the home rule passed by Parliament in 1914 which automatically goes into effect, unless amended or repealed, six months after the treaty is signed for peace, Ireland will have a Parliament of its own which will legislate on all purely domestic affairs, but will also send a certain number of members to the British Parliament.

Another plan is to give Ireland the status of a self-governing dependency like Canada or Australia with its own Parliament and no representation in London unless a domestic emergency could be later established.

A fourth plan which has not been discussed in the United States, is that home rule should be granted at the same time on the same terms to Ireland, Scotland and Wales and England. This plan is being seriously considered by the government. It is pointed out that for it almost unanimously if it were pointed out to them that at present the English people might well vote for it.

Chiefly by men who are not English, Lloyd George is a Welshman, Bonar Law is Scotch, and Sir John French is Irish. The government is quite largely in the hands of non-Englishmen and it is seriously pointed out that the present British Parliament has vastly more on its hands than it can well handle. With separate parliaments for England, Ireland, Scotland and Wales, each attending to all domestic questions of the nation, indeed, imperial parliament could devote itself to the interests of the world-wide empire.

To all these suggestions, Belfast first of all declares she will rather accept. I was told by one of the great Ulster leaders, a man of prominence in the business world, that if any form of home rule was put into force he and all his friends would leave Ireland forever. Rather than home rule he would prefer an Irish republic. He was forced on them they would presently be able to demonstrate that they were the strong men of Ireland and control of the new government would presently rest in their hands.

TO PAVE ROADS WITH
ROYALTIES FROM OIL.

(BY CABLE AND ASSOCIATED PRESS.)

TEXAS COUNTY LEASES DRILLING RIGHTS ON PUBLIC HIGHWAYS IN NEW FIELD.

WICHITA FALLS (Tex.) March 23.—Prospects are promising for the deriving of many millions of dollars of revenue by this county from royalties on oil wells that are to be drilled on the public roads. It is planned to devote all of the proceeds obtained from this source to the construction of permanent highways in Wichita county. The fact that many miles of carry roads run through the Burdett and other producing oil fields caused the Board of County Commissioners to receive numerous offers from oil operators to lease the rights to drill wells upon this public property.

Con a result of negotiations with this object in view, the Board of Commissioners has leased the oil rights on all the public highways and other public lands in the county with the exception of the County Poor Farm, to a syndicate headed by D. C. Nelson.

The most valuable stretch of public road is the one that runs from the town of Burkett to the Red River, a distance of two miles, passing through the heart of the proved oil producing territory, where as high as \$25,000 per acre was paid for lease rights. Several wells will be drilled immediately upon this stretch of highway.

If more than enough money is derived from the lease and royalties to construct paved roads throughout the county, the excess will be used to build and maintain public school buildings.

LUMBER PRICES
REMAIN FIXED.

Many Trade Difficulties De-
velop in Conference.

Industry Board Expected to
Hold Other Meetings.

Will Consider Cement and
Brick this Week.

(BY A. P. NIGHT WIRE.)

WASHINGTON, March 23.—Representatives of the lumber industry and the industrial board of the Department of Commerce met today in the afternoon to discuss the many difficulties peculiar to the trade in beginning conference yesterday with a view to effecting price revisions similar to those in steel products.

At the close of more than six hours of discussion, it was announced that in the absence of any organization competent to speak for a majority of the lumber producers in this country, no agreement had been reached and in view of the complexity of the situation, sufficient data was not available on which the board could base any action.

Hope of an agreement was held out, however, in the decision to have a committee of the lumbermen remain in Washington for consultation with the board and to supply the necessary data for a practical consideration of the situation of the lumber industry. Further meetings will be held this week in which the board will consider cement and brick.

It was evident from comments after the meeting that the lumbermen did not hold out any prospect of material reductions in the prices of their products. John H. Kirby, president of the National Lumber Manufacturers' Association, declared production costs had gone up out of proportion to the rise in price of the raw materials.

Members of the board said the difficulty of the lumber industry was not the same as that of the steel industry. Kirby pointed out that the western producers were not represented at the meeting on which to effect adjustments between southern producers and the lumbermen.

These adjustments, he said, were all the other varieties of lumber, each of which had its own production problems and no general spokesman. Some of the lumbermen were dubious as to the legality of the board's action in making such adjustments.

Mr. Kirby bluntly said the associations of which he was a member when they simply carried out in a professional way the instructions they had received.

If this is to be a peace of understanding and reconciliation, the board must be concluded must contain the traditional amnesty clause.

GALE FAILS TO STOP
BIG ARMY AIRPLANE.

(BY A. P. NIGHT WIRE.)

MINEOLA (N. Y.) March 23.—Driving into the teeth of a seventy-five-mile gale that at times virtually stopped his big plane, Capt. Leroy N. Francis of the army aviation service landed at Hazelhurst field yesterday evening after a trip from Washington consisting of three hours and six minutes. He brought four passengers.

COYOTE PELTS'
VALUE RAISED.

Newly-Discovered Dying Process
More than Doubles
Former Prices.

(BY A. P. NIGHT WIRE.)

WEAVERVILLE (Cal.) March 23.—Coyote pelts have taken a sudden increase of value due to discovery of a dying process whereby the fur can be made to appear like that of the black fox. To this fact is attributed by E. V. Jotter, supervisor of the Trinity National Forest, an increase in the activities of trappers in California forests.

"High prices paid by fur dealers is shown," Supervisor Jotter said, "in the following appraisal of furs made by a San Francisco fur expert: 6 large coyotes, \$18 each; 2 wildcats, large, \$12.50 each; 1 Fisher, large prime, \$10.00; black pelt, 70.00.

These were taken by M. J. McKnight, a trapper stationed by the United States Biological Survey in the Trinity National Forest."

AMNESTY IS SOUGHT.

Germany Would Have U-boat
Commanders Escape All Punishment.

(BY CABLE AND ASSOCIATED PRESS.)

BERLIN, March 23.—Demand that the peace treaty contain a clause granting amnesty to German submarine commanders for the outrages they committed in the ruthless submarine warfare is voiced by the Allgemeine Zeitung. The Berlin newspaper, evidently expecting that the Allies will demand the surrender of all German submarine commanders and to present an argument to show why these men should not be punished for the crimes they committed on or under the sea.

The paper also gives warning that any attempt to hold them responsible for their murders of innocent persons might fan the flames of international hatred.

These captains, it asserts, were not responsible for the conduct of submarine warfare or for carrying on the unrestricted submarine campaign. They were acting within the scope of their orders and the military necessity of the hour.

LEAGUE DEFERS
OUR AMENDMENT

Will Take Action on Monroe
Doctrine Today.

Foch Declines German Pro-
posal for Polish Troops.

Syria Protests Sending Com-
mission of Inquiry.

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, March 23.—The Peace Conference commission on the League of Nations at its meeting at American headquarters Saturday afternoon under the chairmanship of President Wilson, completed consideration of the signatories of the league covenant, the changes being formal. The important amendments concerning the Monroe Doctrine, the Japanese amendment for racial treatment and the French amendment relative to creation of a general staff were deferred for consideration at the next meeting, to be held Monday at 3:30 p.m.

The Japanese amendment has been revised so as to be introduced in the preamble and recites the equality of nationals of the states belonging to the league.

PROPOSAL IS DECLINED.
(BY CABLE AND ASSOCIATED PRESS.)
LONDON, March 23.—Gen. Nudant, representing Marshal Foch, at a meeting of the army commission Wednesday, declined the German proposal that Polish troops be landed in the Baltic, according to a German wireless dispatch.

Gen. Nudant said the international commission at Warsaw had been instructed to make all preparations for landing the troops at Danzig. For this purpose, the message says, the German government was requested to send a commission of the commission the necessary liberty to travel.

PARIS, March 23.—(Havas.) The council of the National Syrian Commission, it was announced last night, has decided to present to the Peace Conference a protest against the declaration of the conference to send a commission of inquiry to Syria, Ottoman Asia.

Surprise is expressed at the decision to delay attribution of mandates to European powers and the conference is asked to hasten the giving of a mandate to France, to "put an end to the occupation" by the Haddad, which divides the country and provokes religious exaltation.

BAKER SPEAKS FOR LEAGUE.
(BY A. P. NIGHT WIRE.)
SAN ANTONIO (Tex.) March 23.—Senator Arthur Capper, in a signed statement which appeared in the Sunday morning issue of his paper, the Daily Capital, indorses the League of Nations principle, but declares certain amendments are necessary, among them one safeguarding the Monroe Doctrine and another assuring the United States absolute control over immigration.

He declares the covenant should be revised to make the meaning in these respects thoroughly explicit.

WOMEN TO SHARE
N CHURCH RULE.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, March 23.—Women are to share in the rule of the church of the Church of England, it was announced today in presenting the Great Council's report to the House of Commons.

It was stated that the council on the question of the church women to the Great Council, many members thought it was not to take any advance of the church.

"PICNIC DAY" ON TUESDAY.
(BY A. P. NIGHT WIRE.)
DAVIS (Cal.) March 23.—The University Farm here has set for Saturday, April 1, an annual picnic for the students and faculty. The picnic is to be held on the farm, which has been purchased by the University for the purpose of providing a place for the students to work on the farm.

MEXICO SPENDS

MONEY ON ROADS

Seven Hundred Miles of Rail-

way Under Construction.

Using Only Home Labor and

Home Materials.

Government Receipts Soon to

Exceed Big Budget.

(SPECIAL CORRESPONDENCE.)

CITY OF MEXICO, March 18.—

tary of the Mexican

government, has officially announced

that construction is now in progress

on about 700 miles of new lines of

railway. This work is being done at

the joint cost of the Federal gov-

ernment and the respective States

traversed by the roads. While the

primary purpose of inaugurating ex-

tensive railroad construction at this

time is to give steady employment

to thousands of laborers, the new

lines will also afford transportation

outlets to rich mineral and agricul-

tural districts. It is the policy of

Mr. Berlanga. All of the materials

for the building of the railroads are

obtained in Mexico. The steel rails

come from the native lumber mills

and the steel rails are manufactured

and Steel Company's plant at Mon-

terrey. Mr. Berlanga said:

"The railroads now under con-

struction by the government are be-

ing built between Cuernavaca, in

the State of Mexico, and Chihuahua,

via Sierra Mojada, a distance of

about 450 miles; from Durango to

the Pacific port of Mazatlan, a dis-

tance of about 135 miles, and from

Durango to Canitas, a distance of

about 120 miles. All of these lines

are important. The building of

railroads from Durango to Mazatlan

has been under consideration for

thirty years or more. Many surveys

were made to locate a feasible route

across the Sierra Madre. This has

now been accomplished and the

road will be finished in due time,

thus establishing a new transconti-

nental line across Mexico. The

Cuernavaca-Chihuahua line will be

the means of opening up develop-

ment vast coal fields in Northern

Mexico, while the Durango-Cuerna-

vacas road will shorten the rail dis-

tance between Durango and the cap-

ital about 200 miles and will give a

shipping outlet to some rich min-

ing districts.

RICH MINING STATE.

"Durango is a rich mining State

and this railroad construction will

be important in adding to the wealth

of the nation. The government has

enough money to undertake all

these works, and in addition, it has

TO TALK BANQUETTERS.
War Subject for Long Beach Address.
Commissioner Frames Moral Ordinance.
Unchaperoned Girls from Public Dances.

After all, possibly the best method of raising the fund sought by the United States Army, which ministered to the needs of the men in the trenches, and which at home has that humanity which does not allow the soldier to seek positions for advancement who have been through the employment by the dry movement.

PEN POINTS.
BY THE STAFF.
 If you want to find out, you must go down where oil is.

Fighting is again reported at Westphalia, probably over the oil field.

Something else to worry about the discussion now going on in the newspapers as to the date of the birth.

It is announced that our old friend Tom and Jerry, have arranged to get a job over the Mexican line this winter.

The new-fangled women's style that is now the fashion, is nothing more than a return to the old style, which was in vogue in the days of the French Revolution.

The New Jersey Legislature has just passed a law which will make it a crime for a man to marry a woman who is already married.

The alleged devotion of President Wilson to the cause of the world, is being questioned by some of the people who are not in the habit of looking at the world from the point of view of the United States.

Dealers report a large increase in the price of oil, which is due to the fact that the supply is becoming scarce.

What about the old-fashioned promise of President Wilson that there was to be an "open market" in Paris? It is claimed that the line of news in regard to the negotiations there is colored by the authorities.

Now that the war is over, plain speaking is no longer in vogue, it might not be out of place to remark that there were a number of patriots who got more money from the government than they did from a private job.

Herbert Hoover is about to be connected with the food problem of the world. He says that time for him to get back and make a living for his family, but he will not run the food problem on the platform of a full dinner pail.

Nobody who knows anything about England, doubts that the war in the shape of indemnities that it is possible to get out of the country, is a very profitable business. John D. Rockefeller is getting very much interested in it.

The order of the War Department, which has been issued, is that the soldiers who have served abroad shall be given preference in the assignment of jobs, and that the soldiers who have served in the front lines shall be given preference in the assignment of jobs.

The veterans of California are on a proposed constitutional convention for the calling of a national convention. The proposed constitution would give the states the right to call a national convention, and the states would be given the right to call a national convention.

President Wilson is a man, and it is not to be expected that he will be perfect. He is a man, and it is not to be expected that he will be perfect. He is a man, and it is not to be expected that he will be perfect.

TO TALK BANQUETTERS.
War Subject for Long Beach Address.
Commissioner Frames Moral Ordinance.
Unchaperoned Girls from Public Dances.

association last year, the initial event of the two-year-old organization, was conducted on a most elaborate scale, but arrangements are being made by the committee to even surpass the 1918 affair this year. The company at the dinner will be limited to fifty, and will be a "star" event.

HAS MORAL LAW.
 The City Commissioners adopt an ordinance now being drafted by James R. Williams, Commissioner of Public Safety, Long Beach girls under 18 years of age will not be allowed in public dancehalls unless they are chaperoned.

The proposed law has been studied by committees appointed by the Long Beach Ministerial Association and Federated Parent-Teacher Association and approved as a great improvement over the existing ordinance governing the management of places of public amusement.

"Experience shows that it is unwise for girls under 18 to go unattended to public dance pavilions," said Commissioner Williams today. This ordinance will be a call to the mothers of Long Beach to accompany their daughters when their girls leave home, in the evening to attend public dances.

Rev. G. Arnold Bode, pastor of St. Paul's Episcopal Church, chairman of the committee of clergymen appointed to frame the proposed law, said, "The proposed law is a call to the mothers of Long Beach to accompany their daughters when their girls leave home, in the evening to attend public dances."

It is proposed to appoint a municipal social guardian to chaperone motherless girls who might otherwise be barred from participating in public dances on an equality with girls more fortunate.

TO BUILD AIRPLANES.
 Keith Graves, who has become associated with Herbert Wilson, the Venice aviator who recently took up

his headquarters in this city to establish a flying school, today announced that he would erect in the near future a factory for the manufacture of airplanes in Long Beach. Contracts for the building of three machines had already been secured. Mr. Graves announced. A new seventy-five horse power Curtiss engine has just been installed in the plane owned by Wilson, who makes daily flights over this city.

FIRE DAMAGES HOUSE.
 Damage in excess of \$1000 was done to the bungalow of Thomas Pullinger, contractor, at 290 Molino avenue, late this afternoon, when the house caught fire from a gas water heater.

IMPERIAL CASTOR BEANS IN FLORIDA.
 [LOCAL CORRESPONDENCE.]
 IMPERIAL, March 23.—Imperial Valley's castor bean crop, threshed here by J. D. Conrad, left Imperial last night in a large 100,000-pound freight car, bound for Florida. The government inspector pronounced the beans of a better quality than any along the Coast, where, he said, some had to be rejected. All the local beans passed the requirements.

The net weight of the beans was 68,522 pounds, or approximately 1500 bushels. J. M. Moore of Brown is represented in the shipment by 418 bushels. R. Burdians of Calexico is the next largest with 134.

IMPERIAL "BONE DRY" ORDINANCE UPHOLD.
 [LOCAL CORRESPONDENCE.]
 IMPERIAL, March 23.—Imperial's "bone-dry" ordinance, effective since December 29, 1918, was upheld as constitutional by Judge Curtis of San Bernardino, who has been trying Imperial county cases the past week, in his decision yesterday morning after hearing the argument on the points of law in the case of the people vs. M. R. Davis. Davis, proprietor of a livery stable here, was found guilty in the City Recorder's court to having liquor in his possession, for which he was assessed a fine of \$150. He immediately appealed to the Superior Court. The trial on the facts was set for April 7.

WAR WORK RECORD.
HOME AND SCHOOL GARDENS PRODUCE CROPS VALUED AT \$4071. STATEMENT.
 [LOCAL CORRESPONDENCE.]
 VAN NUYS, March 23.—According to statistics compiled by Miss Edna Newby, teacher of English in the high school here, the work accomplished by the thirteen teachers and 135 pupils in the various branches of war activities shows very gratifying results.

Liberty Loan Bonds to the amount of \$5680 were purchased by 137 teachers and pupils, who also bought Thrift Stamps to the amount of \$1466.35. Number of Red Cross articles made, 100; clothing made, 27; phonograph records, 48; Christmas boxes, 48; Christmas cards, 135; paper, 30; tin foil and over 2000 bottles of ketchup.

Thirty-one home and school gardens were operated, from which 24071, the school garden products alone bringing in \$1320.

The school collected 1000 boys to the service, three of whom were graduates, eight former students, and one teacher.

Contributions to the Y.M.C.A. \$620.20; Red Cross, \$150; clothing made, 100; food, 100; miscellaneous donations from time to time to the American Red Cross, 100; for the French relief ships which sailed from Los Angeles Harbor, 100; for the school and contributions for their support are being made by teachers and pupils.

Valuable service was given in all of the Liberty Loan drives, in aiding in planting cultivating and harvesting crops on the farms near Van Nuys, and in other ways completely detailed by Miss Newby in her report.

PNEUMONIA VICTIM.
 [LOCAL CORRESPONDENCE.]
 PASADENA, March 23.—Capt. Peter Richardson, United States Army, son of Mr. and Mrs. Charles Richardson, 597 Oakland avenue, this city, and chief of the headquarters staff of the American Army of Occupation on the Rhine, died of pneumonia there February 14, which was his birthday. The parents have been officially notified of Capt. Richardson's death and it has been announced in the casualty list.

Capt. Richardson served in a headquarters detachment during the border trouble and in the war with Germany was assigned in a similar capacity with the American First Army, and at one time detailed as aide to Gen. Hunter Liggett, commanding the First Army. Later he was placed on the headquarters staff of the Third Army, which became the American Army of Occupation.

The government has notified the parents that Capt. Richardson was killed in Germany, but that he is not to remain in enemy territory. The body is to be taken to France for burial later.

Have you visited the most beautiful shop in the West at 48 North Los Robles avenue—Gracie Nicholson's Oriental Gift Shop?—Advertisement.

HARBOR WOMAN HELD ON ASSAULT CHARGE.
 [LOCAL CORRESPONDENCE.]
 WILMINGTON, March 23.—Mrs. Diego Romero was arrested here last night on a charge of assault to murder, after having stabbed Francisco Merando with a knife in the back of the neck. Jealousy on the part of Mrs. Romero, because Merando had married another woman, is said to have prompted the assault which was committed at the home of Merando at 202 E. Street. Merando is not thought to be seriously wounded.

INSTANT POSTUM
 with its coffee-like flavor but pure cereal composition adds zest and health to every meal. Requires little sugar, & is made in a moment.

BREST STORIES NOT TRUE, SAYS OFFICER.
 [LOCAL CORRESPONDENCE.]
 RIVERSIDE, March 23.—Conditions at the American concentration camp at Brest are excellent. All stories to the contrary in my opinion are untrue.

This is the emphatic statement made by Lieut. D. H. Armstrong, who has just returned after eighteen months' service in the American Aviation Corps in France. "Because of the stories in circulation regarding the state of affairs at Brest, I took it on myself to make an investigation," said Lieut. Armstrong. "Nowhere could I find evidence that things were not as they should be. I went over the camp thoroughly and talked with many men. Contrary to the published statements, I discovered that the camp was in first-class condition."

Lieut. Armstrong is accompanied by Mrs. Armstrong, who for eighteen months was in charge of a children's and women's hospital conducted by the Red Cross at Versailles.

TOO MUCH FOR HUNS.
 Capt. Macdonald of Oil Tanker "Buck Teils" Under Sinking.
 [LOCAL CORRESPONDENCE.]
 LOS ANGELES HARBOR, March 23.—Below the surface and out of a crew from the San Pedro naval training station won in a terrific fight with a German U-boat was related when the Associated Oil tanker Frank H. Buck arrived here after having traveled 50,000 miles since the left here in December, 1917, for her hazardous service in the war zone. Although scarred by weather and work she was untouched by the German shells that were fired at her. The U-boat was destroyed by the German submarine's stern or near the bow, and the water came in and the diver hatched. We could not be sure, for the twenty-ninth shot, already in the air, landed near the conning tower just below the water line and lifted the forward end of the sub clear out of the water. There was a terrific explosion. A dense cloud of smoke burst from the diver and the U-boat was gone.

That night we heard a German diver sink out after oil. There was no reply."

The log of the tanker shows that the Germans used shore batteries to the planes falling on the deck. The submarine was about 200 feet long, of the latest type, of exceptional speed and skill of Chief Gunner's Mate Joseph Steffens and Gunner's Mate Ed Geier of the crew, who are recorded in the log.

Guy was a bank clerk in Los Angeles before he enlisted in the navy and was assigned to the training camp at San Pedro, and held the record at the camp for gunnery. The Buck was built at San Francisco in 1914 and was in the coast service until taken over by the government. She has been under command of Capt. Macdonald ever since she was built.

GOATS NOW DOING WORK FOR UNCLE SAM.
FOREST SUPERVISOR PLUMES HIMSELF AS THE ONLY PRECEDENCE-BREAKER.
 Supervisor Charlton, of the Angeles National Forest Reserve, is now pluming himself as the only precedence-breaker. In spite of the rules of the Department of Agriculture that goats shall not be shepherded on the national reserve, 400 of the ruminants are now grazing along the firebreaks in the San Bernardino Mountains, between Cajon Pass and Oak Glen.

The goats were shipped into the Angeles reserve through an arrangement by Supervisor Charlton with W. H. Moore of Tucson, who is paying \$20 a month for the privilege of letting the strong-scented ones keep the weeds off the firebreaks for Uncle Sam.

About three years ago, an unsuccessful attempt was made to introduce goats into the big woods, for the purpose of cleaning off the firebreaks, but it did not pan out. A one-legged herder was hired by the owner of the goats, and if the goats came back at night for care, all right; if they did not, the herder did not worry. The consequence was that the whole herd finally wandered away, and for months afterward Santa Ana Canyon, where they were released, was full of wild goats, for they had in the meantime increased and multiplied. The goats also furnished food for a number of people living in that vicinity, and the sight of a goat hide on the back fence was a familiar one.

DEFER MEMORIAL PLANS.
 REDLANDS, March 23.—The City Trustees have decided to wait at least a year and probably longer before making definite plans for a memorial for the boys in the service. It is believed that by that time the big Greek theater with a pipe organ installed can be placed in the amphitheater. For the present, sequoia trees, one for each boy who died in the service, will be planted in Sylvan Park and bronze tablets will be placed at the entrance of the City Hall.

Illegal Boats Sales Charge.
 [LOCAL CORRESPONDENCE.]
 PORTERVILLE, March 23.—Max P. Jamison, City Recorder, has announced that seventeen or more complaints charging illegal sales of liquor against a dozen offenders will be tried next month, after the county charges pending against some of the offenders have come on in the court here. These arrests were made after evidence was secured, after the declaration of a "war" on bootleggers. Mrs. Nettie Smith, former proprietor of the red-light district here, was among those arrested on new complaints today.

Coulter Dry Goods Co.

 Seventh Street at Olive
 Marvellous Beauty in These New
Pussy Willow Silks

Soft and supple as their name would indicate, these shimmering Pussy Willow silks are instant favorites with women of refinement in dress.

The new Victory patterns are intricate, beautifully blended, with a myriad of color-tones which make them harmonize with any material with which you wish to combine them.

While primarily for lining capes, dolmans, jackets, the Pussy Willow silks are admirably adapted for making into gilets, blouses, or for using in combination with georgette and like materials.

No store equals the showing you may find at Coulter's.

"Auratones!"
 The Word Fascinates!

Because its origin is based upon a principle of truth. Pure color is seen in the spectrum of sunlight. Whether the light be regarded as physical or metaphysical, the law of vibration is the same.

All dark shades become softly radiant and alive when touched by the luminous Auratones.

Auratones need little trimming—they suggest their own decoration.

Sombre blue wears Gre-nimbic as a priceless emerald ring. Rosanna embroiders the dark Auratone grounds with life.

Summer Silk—is summer silk; but Auratones are summer silk, and autumn silk, and spring silk, and Cheney silk, and the silk for you.

(Silk Section—Second Floor)

THE TEST.
 Over the land we Yankee boys
 To training camps.
 Things were long.
 Not much was said.
 But we were
 Over the seas we Yankee boys
 To bleeding France.
 Said good-bye.
 Waves were high.
 Subs were deep.
 But we were
 Over the roads we Yankee boys
 To No Man's Land.
 Mud was deep.
 Not much was said.
 God was here.
 But we were
 Over the top we Yankee boys
 To meet the Hun.
 Did our best.
 Some went west.
 A few went home.
 But we were
 Over the seas we Yankee boys
 To friends and home.
 Think of us.
 Write to us.
 Wait for us.
 We were here.

SHIPPING GREEN PEAS.
 SAN LUIS OBISPO, March 23.—The green pea shipments are progressing rapidly in this section. One commission firm has bought up 90 per cent. of the green pea crop of the Pismo section, and is shipping 200 sacks per day in loaded drums to the markets of New York, Philadelphia, Chicago and Boston. Within the next few days it is expected that the peas will be shipped in carload lots from this city.

CITY PLANS PURCHASE.
 [LOCAL CORRESPONDENCE.]
 HUNTINGTON BEACH, March 23.—At a meeting of citizens representing residents of the Vista del Mar section of the city and Col. S. H. Finley of Santa Ana, owner of the East Side Water Company, definite action was taken to acquire the water property for taxpayers of this portion of the city. The City Trustees will be asked to call an election at an early date for the purpose of providing funds for the purchase. Rids for the municipal camp ground to be constructed on the beach, east of the pier will be opened Monday evening, March 21.

GOATS NOW DOING WORK FOR UNCLE SAM.
FOREST SUPERVISOR PLUMES HIMSELF AS THE ONLY PRECEDENCE-BREAKER.
 Supervisor Charlton, of the Angeles National Forest Reserve, is now pluming himself as the only precedence-breaker. In spite of the rules of the Department of Agriculture that goats shall not be shepherded on the national reserve, 400 of the ruminants are now grazing along the firebreaks in the San Bernardino Mountains, between Cajon Pass and Oak Glen.

The goats were shipped into the Angeles reserve through an arrangement by Supervisor Charlton with W. H. Moore of Tucson, who is paying \$20 a month for the privilege of letting the strong-scented ones keep the weeds off the firebreaks for Uncle Sam.

About three years ago, an unsuccessful attempt was made to introduce goats into the big woods, for the purpose of cleaning off the firebreaks, but it did not pan out. A one-legged herder was hired by the owner of the goats, and if the goats came back at night for care, all right; if they did not, the herder did not worry. The consequence was that the whole herd finally wandered away, and for months afterward Santa Ana Canyon, where they were released, was full of wild goats, for they had in the meantime increased and multiplied. The goats also furnished food for a number of people living in that vicinity, and the sight of a goat hide on the back fence was a familiar one.

DEFER MEMORIAL PLANS.
 REDLANDS, March 23.—The City Trustees have decided to wait at least a year and probably longer before making definite plans for a memorial for the boys in the service. It is believed that by that time the big Greek theater with a pipe organ installed can be placed in the amphitheater. For the present, sequoia trees, one for each boy who died in the service, will be planted in Sylvan Park and bronze tablets will be placed at the entrance of the City Hall.

Illegal Boats Sales Charge.
 [LOCAL CORRESPONDENCE.]
 PORTERVILLE, March 23.—Max P. Jamison, City Recorder, has announced that seventeen or more complaints charging illegal sales of liquor against a dozen offenders will be tried next month, after the county charges pending against some of the offenders have come on in the court here. These arrests were made after evidence was secured, after the declaration of a "war" on bootleggers. Mrs. Nettie Smith, former proprietor of the red-light district here, was among those arrested on new complaints today.

A Monopoly

If you could be guaranteed that the first 250 men working in San Pedro would secure your rooms you would hurry and build the rooms, wouldn't you? The Harbor Housing Corporation is building at the harbor to accommodate 250 men as much more attractive than anything in San Pedro and at the same price that we think it amounts to a monopoly. The real money for you is in participating in the enterprise. Stock subscription books are open at the office of the Corporation.

"Buyer 30" Contracts

In buying stocks on the Los Angeles Stock Exchange an advantageous method is afforded by the "Buyer 30" or "30" contracts, whereby you make a deposit of 30% of the total purchase price with your order and agree to complete the purchase in 30 days. During that period you can sell the stock and take your profit on a retail market, or you can renew the contract for another 30 days.

We specialize in "Buyer 30" Contracts.
